Surgeon Advocates Cutting Open Chest and Work Heart by Hand. HARTFORD, CONN., May 14.—It is believed by Dr. D. F. Sullivan, who, while operating on Nuncio C. Chital, at St. Francis's Hospital on Sunday, twice saved his natient from death by subtly while operating on values while while saved his patient from death by gently grasping the heart and squeezing it in time with its normal pulsations until it beat again of its own accord, that many lives might be saved by this method of artificial respiration. To all appearances the man was dead twice, and yet he lived again when the heart was squeezed, sending the blood coursing through the arteries.

Dr. Sullivan thinks that if a person could be operated upon immediately after being from the water in many drowning cases life might be conserved. He advocates opening the body after being from the water in many drowning cases life might be conserved. He advocates opening the body and removing the ribs until the heart is visible and is accessible, in order that the fingers may be inserted to handle it. In many accidents life still lingers long after the person seems to have ceased to breathe.

TRY TO BURN SCHOOL CONTAINING 1,000 CHILDREN

CONTAINING 1,000 CHILDREN

CHICAGO, May 14.—Detectives in the employ of the Chicago Board of Education are searching for an incendiary who attempted to burn the Clark public school, containing 1,800 children, at Ashland Avenué and West Thirteenth Street. The fire, which started at the foot of one of the stirways on Monday, was discovered in time to prevent the spread of the flames. The lower steps of the stairway had been saturated with kerosene and a basket of shavings and papers set on fire. That the attempt at murder of innocents was perpetrated wilfully, principal and teachers and members of the school board do not doubt.
